THE FEATURES AVAILABLE

TRIP COMPUTER

Offers trip computer functionality with information about fuel consumption, distance to empty, trip time and much more.

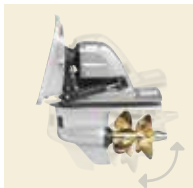

CRUISE CONTROL

With fingertip control of your engine rpm, you can fine-tune your boat's speed for optimal fuel economy and comfort.

SINGLE-LEVER MODE

To operate twin, triple or quad engines with only one lever gives you easy speed control even in rough seas.

POWERTRIM ASSISTANT

Automatically trims your drive to the perfect running attitude for optimum performance and fuel economy.

TOW MODE FOR WATER SPORT

Sets your boat's speed to your preset maximum rpm. Maintains the set speed and compensates for any changes in load for maximum water sport fun.
